The traditional American front porch... it's where we welcome friends and family into our home. It's where we sit and enjoy their company. It's the place where we go to escape the stress of daily life and take the time to sit back, relax, and enjoy life.

The last thing you want to worry about is the work required to keep your porch beautiful, and that's where HB&G can offer you the solution of a lifetime.

HB&G offers a wide variety of porch and outdoor living products to help you create the design that best suits your way of life. Best of all, many of our products require little or no maintenance and come with a solid warranty.

The following pages include everything you need to know to build a beautiful, enduring structure that will improve the quality of your life.

— SINCE 1880 —

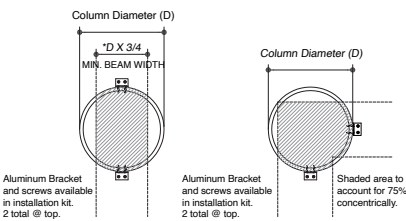

Building Code Compliance

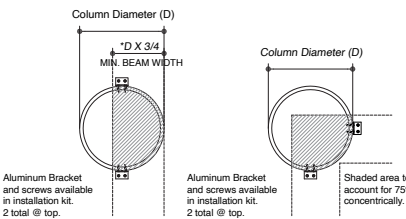

HB&G has updated our product testing to comply with changes to the Building Codes (IBC/IRC) and to the Acceptance Criteria for Fiberglass Columns. The 2 major changes that impacted PermaCast®Plus and PermaLite® were:

- Eccentric Axial Loading – the new maximum allowable load values are based on eccentric (offset) axial load as opposed to concentric (centered) axial loading.
- Increased Safety Factor – the safety factor on the allowable load was increased from 2.5 times to 5 times

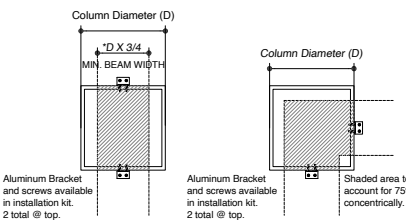

Eccentric loading of columns is not recommended by HB&G.

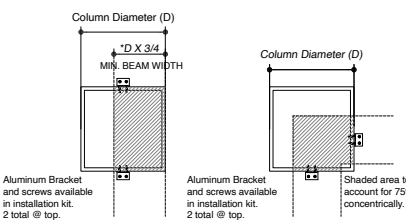

Acceptable Applications

Unacceptable Applications

Acceptable Applications

Unacceptable Applications

HB&G recommends following the installation instructions included with the product purchased. HB&G structural products conform to 2018 IBC/IRC.

Selection

HB&G offers the widest selection of porch products available on the market. With a variety of sizes and styles, HB&G has the porch accessories to meet the needs of any project.

The PermaPorch® Package

It's an effective way to coordinate all of your porch accessories. At HB&G, you will find an entire line-up of products that are made to work together, creating a beautiful, seamless, and cost-effective addition to your home. Enjoy the lasting beauty of columns, posts railing and balustrade systems and much, much more, all from the company that is setting new standards in porch products and accessories.

Ease of Use

Time is money. With HB&G products, not only do you save time on the installation, you'll also save a considerable amount of money maintaining your porch accessories over the lifetime of the product. Many of the HB&G products can be installed in 1/3 of the time of traditional wood products.

Looking for an Uplift Solution?

Look no further than

Perma-Loc® from **HB&G**
BUILDING PRODUCTS

The HB&G Uplift Anchoring System

Our uplift anchoring system from HB&G® is versatile, easy to install and affordable. The code compliant hardware kits provide the function needed to protect column supported projecting roof lines from wind uplift forces, while solving for common coastal challenges for residential, commercial and municipal installations.

Perma-Loc® Features and Benefits:

- 4,200 lb strength galvanized aircraft cable combined with 316 stainless steel marine-grade attachment hardware for optimal uplift resistance. Exceeds the required capacity for 1,000 lb. uplift.
- Perma-Loc® eliminates the need to split a column, along with all of the labor and material costs associated with splitting and re-joining two column halves.
- All hardware is included for concrete substrate applications.
- Available in three sizes: up to 12', 16', and 20' lengths.
- Extremely cost-effective and versatile application that covers the entire spectrum of HB&G load bearing products.
- Patented design accompanied by certified/stamped engineering documentation.
- Florida Department of Business and Professional - Regulation approved #37300.

The PERMACast®Plus Column Collection

- Weather Proof.
- Insect Proof.
- Load Bearing.
- Low Maintenance.
- Ready to Prime and Paint.
- Limited Lifetime Warranty.*
- Custom Fluting Available.

24" Round PermaCast®Plus Columns with Roman Corinthian Capitals and Attic bases.

Architectural Accuracy

In the first century B.C., Vitruvius, a Roman architect and engineer, wrote what has become the most influential work on classic form. In it, he elaborates on the discovery by the ancient Greeks of entasis, a

gradual tapering of the upper two-thirds of the round column which offsets the undesirable illusion from eye level that the column shaft grows larger as it ascends. HB&G round columns hold true to this classic form.

*See Warranty

HB&G PermaCast®Plus Columns are available in round or square. The round columns are fluted or plain, with or without the classic tapering of the upper two-thirds of the column. Square columns are available in a variety of styles as well, including plain or fluted,

applied panel, recessed panel, or the Craftsman style column. Our capitals and bases are made from durable low maintenance materials; and, like the columns, they maintain architectural authenticity and historical accuracy.

*Products shown have been finished for demonstration purposes. PermaCast®Plus and RoughSawn® Columns ship unfinished.

See pages 15 and 16 for cap and base dimensions.

PERMACast®Plus RoughSawn®

- Made of Structural Fiberglass.
- Will not Check, Twist, Split or Rot.
- Load Bearing.
- Can be Stained using a Solid Body Acrylic Stain or Painted.
- Weather and Insect Proof.
- Low Maintenance.
- Easy Installation.
- Limited Lifetime Warranty.*

The beauty of wood

Without the issues:

- Checking, splitting, twisting...

*See Warranty

• Split columns are not load bearing. • See page 16 for Decorative Capital dimensions.

Versatility of Square Columns

The design and versatility of an HB&G square column has enhanced its popularity with today's architects. The HB&G Square PermaCast®Plus column lineup includes plain, recessed panel, fluted, and Craftsman styles. An unlimited combination of styles can be achieved by various uses of the panel moulding, neck moulding, and caps and bases. Additionally, the plain square column is not tapered and can be cut to any height without affecting the fit of the caps and bases.

Recessed Panel **PERMA**Cast® Plus Columns

Poly Tuscan Base Fluted Column.

PermaCast® Plus No-Taper Column with Poly Tuscan Cap and Base.

PermaCast® Plus Plain No-Taper Column with Poly Tuscan Cap and Base.

Fluted Round Tapered **PERMA**Cast® Plus Columns

HB&G Offers Two Distinctive Types of Flutes.

Stock Molded Flute: Available in diameters of 8" x 8' - 16" x 10' columns (See price guide for specific lengths available.) The stock molded flute is part of the manufacturing process and cannot be altered.

Custom Flute: The custom flute is milled after the column is manufactured and can be modified to your specific length. All round PermaCast® Plus columns, 6"x 4' - 30"x 30', are available with an optional custom flute. (Call a customer service representative for pricing and lead times.) Adjusted Flutes available.

*Inside dimension may vary from "Stock" Flutes

Neck mould not included.

Flashing and Installation Kit not available with No-Taper Tuscan cap and base sets.

Split columns are not load bearing.

*Go up one size if splitting

HB&G's number one goal is finding ways that we can save you time and make your life easier.

PermaCast® Plus
PermaFlashing and
Installation Kit

The PermaCast® Plus flashing with Plumb-Fit® and installation kit is available in selected Tuscan cap and base sets.* This innovation will not only save time but will keep the elements out of the column and secure the top and bottom of the column.

*Not available in Tuscan cap and base sets for Craftsman, No-taper, PermaLite®, and Wood columns.

HB&G offers a split kit and a split kit with flange option with an improved adhesive. These kits can be purchased separately. Adhesive must be stored in a climate-controlled environment.

17040 Standard Installation Kit.

Entasis - Parallel Dimensions are used to specify where the column begins to taper. These dimensions use length from the bottom of the column shaft to the point where the taper begins. This is necessary to determine how much a column can be shortened before the base begins to fit loosely. Filler and caulking may be used to fill the gap between the base and shaft if it is necessary to shorten the column beyond the parallel dimension.

*For Tapered Round Columns

PERMA Capitals and Bases

Choosing the right cap and base for your columns is as important as the selection of the column itself. The right cap and base can define the style of the front porch and create an atmosphere that compliments your lifestyle. The cap and base options offered by HB&G are shown on page 7. Please refer to the following data that corresponds with your cap and base selection to ensure that you end up with the products that work best for you.

Capital and Base Options

Most capitals and bases for PermaCast® Plus columns are made of polyurethane and are decorative. The shaft fits through the center of the capital and base and does not alter the height of the shaft. Decorative capitals for round PermaCast® Plus columns will add to the overall height of the column itself.

Attic Base

Attic Bases are used for a more ornate look and come in 1 or 2 pieces depending on their size.

Crown Cap

Available for PermaCast® Plus Square shafts 6-12".

Colonial Cap and Base

Referred to as our low profile cap and base, the Colonial is designed specifically for use in applications where railing will be attached to the column. Available for PermaCast® Plus round and square shafts 6"-12".

Beveled Cap and Base

Designed to deliver a popular, more contemporary appearance, beveled caps and bases are available for PermaCast® Plus Square shafts 6-12".

PermaTuff® Base and Poly Cap

A durable hard shell base combined with a poly cap. Designed for high traffic applications. Available for PermaCast® Plus round shafts 8"-12".

Tuscan Cap and Bases

The Tuscan style is standard and best compliments the PermaCast® Plus column. The Tuscan is available for all round and square shafts. For dimensions see pages 9-10, 12-13, and 16.

Decorative Capital

Five styles of decorative capitals are available for all round tapered and square shafts. Using a decorative capital with a round PermaCast® Plus shaft will add to the overall height of the column itself. Decorative capitals do not alter the height of the shaft when used on a square PermaCast® Plus Column.

• See page 7 for images.

Splitting
Options

NOTE: Decorative Capitals are not designed to fit non-tapered columns.

Painting Instructions

Painting instructions for round and square PermaCast®Plus columns:

- Rinse and allow to dry completely.
- Prime with high quality exterior latex bonding primer or use an oil-based bonding primer in accordance with paint manufacturer's instructions. A light coat of primer should be applied and allowed to cure fully.
- Paint evenly with several light coats over column with a high quality exterior latex or oil-based paint in accordance with paint manufacturer's instructions.
- Do not paint PermaCast®Plus columns using dark colors (dark colors are considered any color that falls within the L value of 56 to 0). L is a measure of lightness of an object and ranges from 0 (black) to 100 (white).

Tips

- ✓ When ordering a decorative capital order the appropriate base for the column.
- ✓ Decorative capitals for square PermaCast®Plus slide over the shaft and do not use a plug. These decorative capitals will not add or subtract from the overall height.
- ✓ When installing a decorative capital on fluted, recessed panel, or square columns, the capital slides over the shaft. The taller capitals will cover the flutes and require additional caulking to finish.
- ✓ Verify exact opening measurement prior to ordering column length.
- ✓ When installing a PermaCast®Plus column, verify concentric loading of column. 100% of bottom must contact substrate and 75% of top must contact soffit.
- ✓ When attaching handrails or corner iron to PermaCast®Plus columns, holes must be pre-drilled before applying screws.
- ✓ When ordering panel moulding for square PermaCast®Plus columns, make sure to order enough for four sides of the column.
- ✓ Split columns are left partially intact. Cut with masonry or carbide-tipped blade.
- ✓ All custom split columns, adjusted flutes, caps, and bases are nonrefundable.

Decorative Capitals for ROUND Tapered PermaCast®Plus Columns

Adding a load bearing decorative capital to a round PermaCast®Plus column will lengthen or shorten the overall height of the column depending on the height of the capital. Subtract the "T" dimension (from the column dimensions chart) and add the height of the decorative capital +/- 1/4" for overall column height.

8"-12" Load Bearing Capital

14"- 30" Non Load Bearing Capital with Separate Load bearing Plug

NOTE: Decorative Capitals are not designed to fit non-tapered columns.

Decorative Capitals for SQUARE PermaCast®Plus Columns

Adding a decorative capital to a square PermaCast®Plus column DOES NOT change the length of the column shaft. The decorative capital simply slides over the shaft. Neck moulding can be applied or not.

PermaLite® Columns

- Weather Proof.
- Insect Proof.
- Load Bearing.
- Low Maintenance.
- Lightweight.
- Ready to Prime and Paint.
- Limited Lifetime Warranty.*

HB&G PermaLite® columns are cost-effective solution that are load-bearing, extremely versatile, require very little routine maintenance and deliver all of the beauty of a column with just 1/3rd of the weight.

SmartColumn®

A NEW SEAMLESS FIBERGLASS SLEEVE FOR PRESSURE-TREATED WOOD POSTS*

Features

- Easy installation! Installs 3.5 times faster than a typical site-built column.
- Limited Lifetime Warranty for peace of mind.
- Superior aesthetics compared to a site-built column.
- SmartColumn® = The Smart Choice.

What you need to know:

- Structural post and installation brackets are not included.
- Order by rough opening size. The column shaft itself is designed to be 12” shorter than the rough opening.
- Capital and base attached to the column shaft conceal all hardware and post once installed.

Leading the industry in column innovation, HB&G PermaWrap® columns are made from cellular PVC which offers the advantages of being unaffected by moisture and insects but has the thickness, ease of use, and workability of wood. PermaWrap® columns are available in multiple sizes and styles – square or Craftsman – plain, fluted, raised panel, and recessed panel. With all of these options, you are certain to find just the right amount of detail for your specific project. Best of all, the PermaWrap® column comes with a 25-year HB&G warranty.

***See Warranty.**

ALL THE GRAIN AND NOTHING TO MAINTAIN

PVC Painting And Finishing

Caulk where required using Siroflex® brand Sealant and Adhesive provided by manufacturer. Putty any holes using acrylic putty or caulk. Lightly sand or scuff surface of column. Clean surface of column to remove any dirt or hand oil residue with light detergent and water, denatured alcohol, or window cleaner. Be sure to remove soap residue with clean water. Apply one coat of 100% acrylic exterior bonding primer and one or more finish coats of 100% acrylic exterior paint.

Do not paint columns using dark colors (dark colors are considered any color that falls within the L value of 56 to 0). L is a measure of lightness of an object and ranges from 0 (black) to 100 (white).

New **Woodgrain PVC PermaWrap** columns quickly transform a treated post into a decorative column in just minutes, eliminating the hassle of cutting other materials on the job site. **They're low maintenance, weather-proof and insect-proof and come with a Limited Lifetime Warranty.** Featuring a realistic embossed woodgrain pattern which resembles popular trim boards and cement siding on the market today, these products bring a simple solution to your building projects.

• 8"-12" Round Decorative Capitals are load bearing.

8" - 12" Load Bearing Decorative
Capitals for ROUND Wood Columns

Adding a load bearing decorative capital to a round wood column will lengthen or shorten the overall height of the column depending on the height of the capital. Subtract the "T" dimension (from the column dimensions chart) and add the height of the decorative capital +/-1/4" for overall column height.

Capitals and bases for wood columns are load bearing. The shaft fits between the capital and base and alters the height of the shaft. Several options are offered for wood columns.

Decorative Capitals

Five styles of decorative capitals are available. Nothing makes a statement like wood columns with a decorative capital. 8"-12" decorative capitals for Round wood columns are load bearing Using a decorative capital with a wood shaft will alter the height of the shaft.

Attic Base

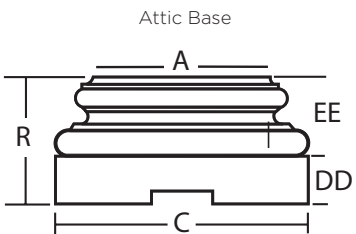

Attic bases are used for a more ornate look and comes in two pieces. (In the chart, see DD for the plinth dimension and EE for the torus dimension).

What You Need
To Know

The height of a column includes capital and base (Ex. 8' = shaft 7', 6 1/2" and capital and base total 8').

- Cap and base fit on top and bottom of column insulating the column from the elements.
- Split columns are not load bearing.
- Store columns in a dry, well-ventilated area.
- For exterior applications: Paint inside of column shaft with a nonfibrous asphaltum type roof coating. Application must reach minimum 48" up the inside bottom of the column shaft and must be painted.
- Wood columns require ventilation at the top and bottom.
- Failure to adhere to installation instructions voids the warranty.

Capital and Base Options

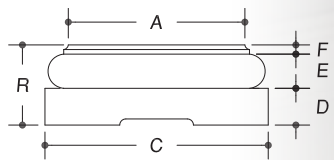

For columns 8" to 12" in diameter, bases, including plinth, are Polyurethane.

The top rail, bottom rail, and balusters are pre-finished white and are made from weather resistant cellular PVC. Turned Balusters are made from hollow rigid vinyl and cannot be painted.

Three Ways to Order the PermaRail Plus® Railing...

1. Do-it-yourself Kit

- Everything needed to assemble and install is included.
- All standard level rail section components included in one box.
 - Balusters and all installation hardware included.
 - Decorative top rail and Rake-Loc™ stair bracket sold separately.
 - How to Order:
 - Choose Your Height: 36" 42"
 - Choose your Length: 6', 8', 10', 12' 6', 8', 10'
 - Choose Decorative Top Rail: Savannah.
 - Note: Standard Rail System has a maximum length of 8'.
 - Optional concealed adjustable stair rail brackets for 6' and 8' rail lengths.
 - Kit Includes:
 - Standard top and bottom rail.
 - 1 ¼ balusters.
 - Support block(s).
 - Aluminum stiffeners.
 - Level-Loc™ rail assembly fasteners and installation hardware.

2. Individual Components

- Build your Own Design.
- For complete rail system you will need the following:
- Note: Standard Rail System has a maximum length of 8'.
- Standard top and bottom rail.
- Decorative top rail (if not using the Standard Top Rail*).
- Aluminum stiffeners (2) - Supplemental stiffener for rail lengths over 8'.
- Square Balusters, 1 ¼ or 1 ½" Turned Balusters – 30" or 36" long.
- Support block(s).
- Level-Loc™ rail hardware kit.
- Baluster screw kit.

3. Pre-Built Sections

- Shipped factory assembled in standard lengths.
- Easy to install.
- Everything needed to install included.
- **How to Order:**
- Choose Your Height: 36" 42"
- Choose your Length: 6', 8', 10', 12' 6', 8', 10'
- Choose Decorative Top Rail: Savannah.
- Note: Standard Rail System has a maximum length of 8'.
- Optional Concealed Adjustable Rake-Loc™stair rail brackets for 6' and 8' rail lengths.
- Onsite trimming and assembly completion required.

*HB&G recommends checking all building codes before the design and installation of your PermaRail Plus® railing.

Building Code Compliance

PermaRail Plus® has been tested to the appropriate standards and found to be build code compliant (CCRR-0262) as follows:

Decorative Top Rail System		Standard Top Rail System	
Level	Rake	Level	Rake
IRC	up to 12' up to 8'	IRC	up to 8' up to 8'
IBC	up to 10' up to 8'	IBC	up to 8' up to 8'

Review your application to ensure intended use complies with all applicable building codes.

Typical Assemblies

- Low Maintenance.
- Primed White.**
- Ready to Install and Paint.
- Easy Installation.
- 25 Year Limited Warranty.*

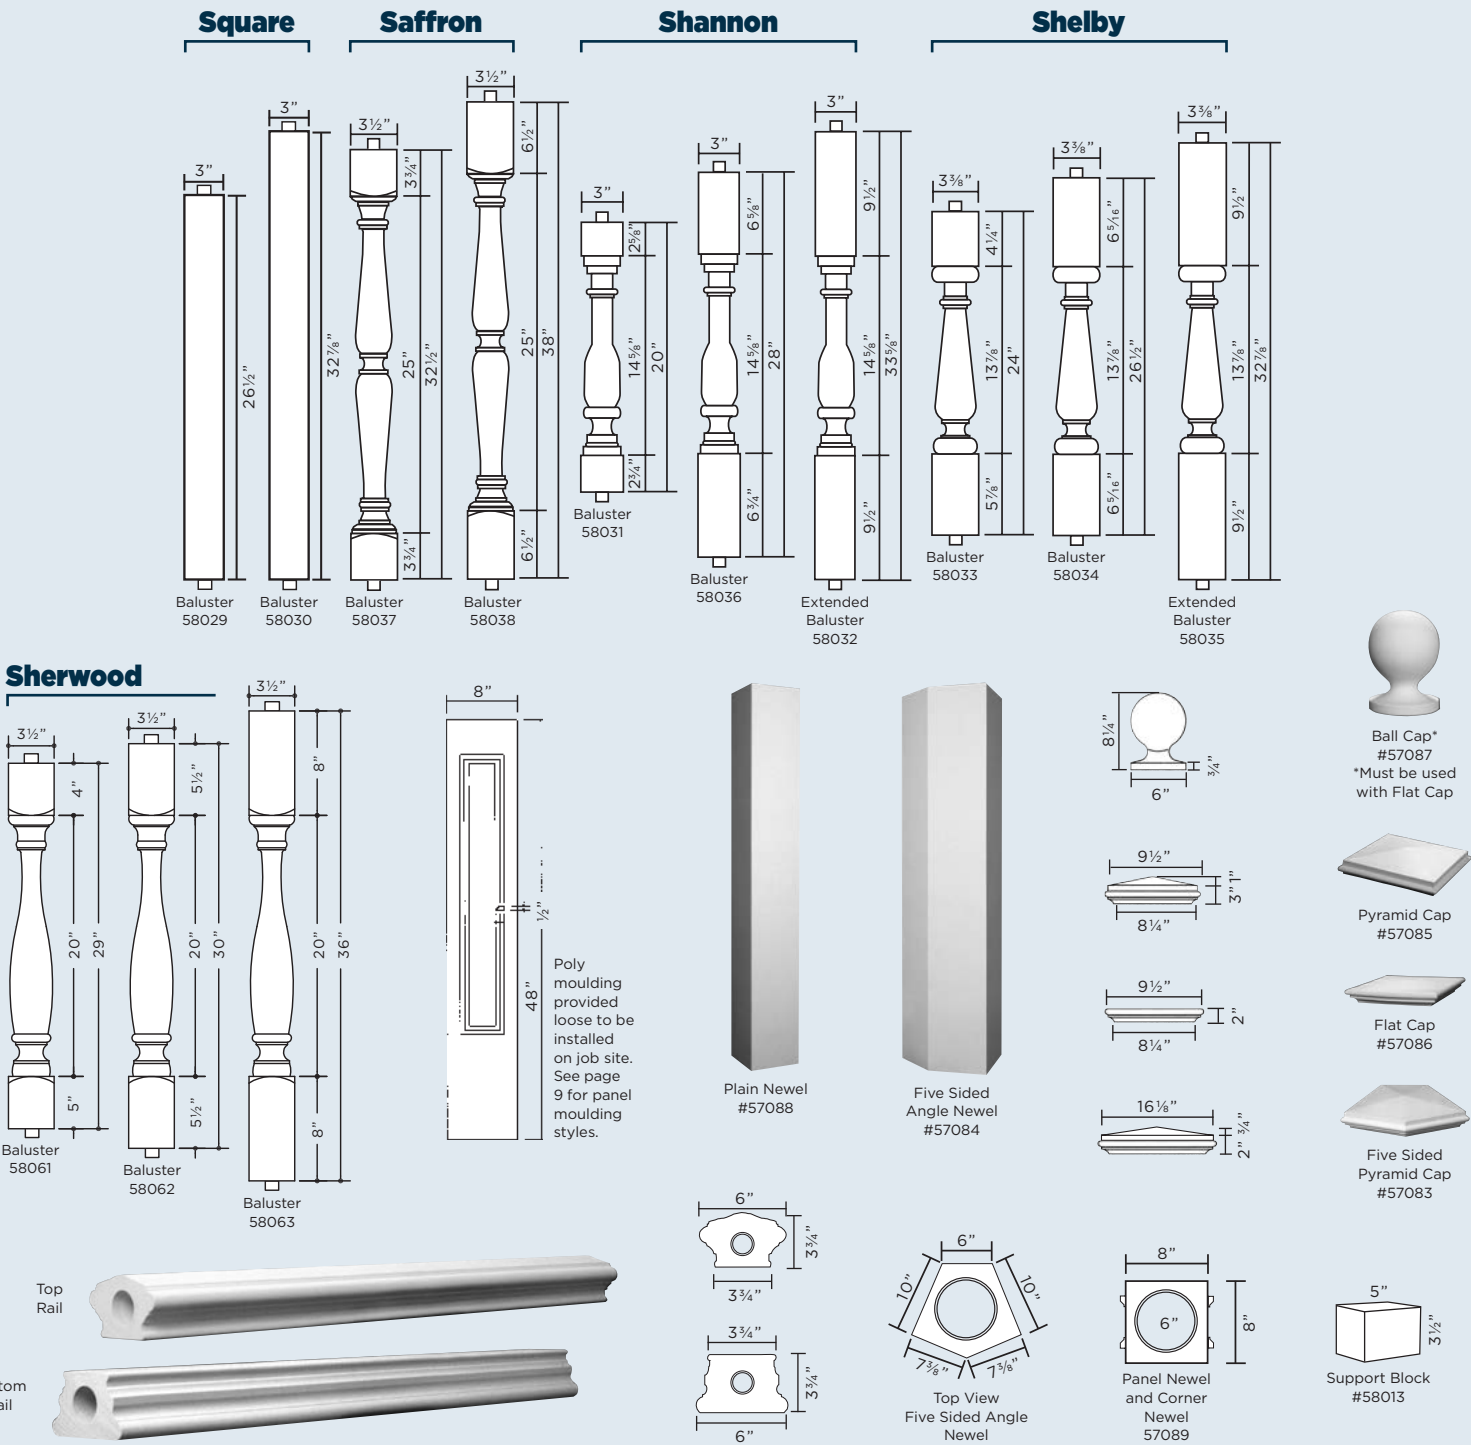

12" Round PermaCast® Plus Columns with Tuscan Cap and Base and 7" Balustrade System.

We have created a unique and elegant balustrade system that can make your home stand out from the rest. These low-maintenance features are made by moulding high-density urethane around structural

elements in order to provide exceptional beauty, durability, and quality. Choose from three rail sizes and several baluster profiles. Curved balustrade systems are available in 10' sections.

*See Warranty.
**Additional priming may be required.

12" Balustrade System

Fiberglass Pergolas

- Wind load rated.
- Low maintenance.
- Ease of installation.
- Pre-finished with Benjamin Moore Command engineered coating
- Will not rot, check or twist.
- Hollow rafter can act as conduit for wiring.
- Stability.

Serenity® Series Fiberglass Pergolas

HB&G manufactures fiberglass pergola kits using pultrusion technology to produce the strongest yet lightest structures available with a Limited Lifetime Warranty. Our structural fiberglass components are strong, lightweight, and provide a higher level of aesthetic quality than vinyl or wood pergolas. Our Serenity® pergola kits are manufactured white with Napa Tails and square or plain round tapered PermaCast®Plus columns without neck moulding. Optional wind-load/deck plates are available.

Standard Napa Tails

Understanding Pergola Dimensions

Freestanding Pergolas

Front View
Beam / Structural rafters
run the length of the
pergola.

Side View
Rafters run the width
(Projection) of the pergola.

Front View
Ledger runs length
of pergola.

Side View
Width (Projection) of
the pergola top projects
from the structure.

NOTE: Pergola sizes are described as length x width as shown in the examples above.

Canopy options for Structural Fiberglass Pergolas

HB&G offers two ways to increase the shade provided by your pergola: canopies and purlins. Each option is specifically designed to be an attractive accent to your pergola and create a shelter from the sun's rays.

The combination of an HB&G pergola and shade solution is the ultimate combination of beauty, function, and versatility to create your outdoor living room.

Solid color Canopies

Designed for ease of use, our exclusive canopy slides on a wired system that is ready to install out of the box. The unique modular design is easy to install, just like our fiberglass pergolas, to enhance your outdoor living experience. Designed to quickly lock individual canopy panels in place to provide shelter from the sun or remove panels as quickly when the sun goes down.

Canopy Solid Colors

**Color may differ slightly due to print settings.

Tweed, Silica, and Crest are available at a 20% upcharge. Please call for more information.

Drop Off For Take Off!

HB&G's program to help you with your take offs!

1. Send your plans using one of these two methods:
 - Email your plans to hbgtakeoffs@hbgcompanies.com
 - Mail your plans to 1015 Brundige Blvd. Troy, AL 36081 Attn: Architectural Dept.
2. Once we have your plans, we will provide a detailed product list and drawings for your project.

HB&G Continuing Education Course

HB&G offers a one hour continuing education course. This course can be conducted in person as a "lunch and learn" or taken online via our website. This course is AIA and AIBD certified.

HB&G Building Products Inc. Limited Product Warranties

Your Home or Commercial space says a lot about you, our Best-in-the-Industry Warranty says a lot about us!

HB&G Building Products Inc. warrants to the purchasers of our products to be free from defects in craftsmanship and materials as spelled out below:

Our Limited Product Warranty Terms:

- Warranties are exclusive to the person(s) who own and reside in the home the product is installed.
- Warranties also apply to the Homeowner who purchases a newly constructed residence on which the Product is installed directly from the builder.
- Warranties are not transferable.
- These Warranties are only applicable in the United States and Canada.

Our Warranty Claim Process:

- With photos and proof of purchase, claims are to be emailed to warranty@hbgcompanies.com.
- If HB&G determines, at its sole discretion, that a product has a manufacturing defect, the repair or replacement of those materials will be the sole remedies.

Limited Time Warranty Periods by Product:

Products	Single Family Residential	Multi Family Commercial
• PermaCast®Plus, PermaCast®Plus or PermaLite® SmartColumn® Columns, RoughSawn®.	Limited Lifetime	25 Years
• Fiberglass Pergola & Outdoor Living Products.		
• PermaWrap® & PermaSnap™ Columns.	25 Years	10 Years
• PermaPost®, PermaRailPlus® & Balustrade/Railing/Ceilings.		
• Polyurethane Brackets/ Medallions.	10 Years	10 Years
• Mor-Shade® Canopy & Sail.	5 Years	1 Year
• Wood Columns.	1 Year	1 Year

Our Limited Product Warranty Terms:

- Our products, when used under the conditions of normal use and are properly installed and maintained in conformance with all of HB&G installation instructions (see QR Code below) as well as all governing building codes.
- HB&G factory-finished products (Pergolas, PermaPost® and Railing) will be free of defects (will not peel, chip or crack) for a period of one year in normal use and are properly installed and maintained in conformance with HB&G installation instructions. This includes Normal weathering such as exposure to sunlight which may cause any finished surface to gradually fade, chalk or accumulate dirt, and/or other Acts of God.

HB&G installation instructions are on our website and are updated as needed, scan the QR code on the left to review the most current versions.

Limitations and conditions not covered:

- Non factory-applied finishes are not covered under this warranty. For claims, original purchasers must look to the warranty of the paint or coating manufacturer for recourse.
- Defects in the foundation, wall or ceiling structure on which HB&G products are installed, which cause failure.
- Installation, delivery and labor costs are NOT covered under this warranty.
- HB&G does not warranty split columns sold direct or by distributors, builders, retailers, suppliers or anyone.

HB&G products are proudly made in Alabama.

MAKE A LASTING IMPRESSION.
