

FIBERGLASS PERGOLAS

WHY FIBERGLASS?

- Stability
- High Strength-to-Weight Ratio
- Corrosion Resistance
- Consistency in Appearance and Performance
- Ease of Installation
- Lower Life Cycle Cost than Traditional Materials
- Limited Lifetime Warranty

EASY TO INSTALL...
EASY TO MAINTAIN...
EASY TO OWN.
We make pergolas easy!

STANDARD STOCK PERGOLAS

HB&G manufactures fiberglass pergola kits using pultrusion technology to produce the strongest yet lightest structures available with a Limited Lifetime Warranty. Our structural fiberglass components are strong, light weight and provide a higher level of aesthetic quality than vinyl or wood pergolas.

PERMALITE™ NO TAPER ROUND COLUMN PERGOLA KITS

Overhead Size	Column Center Size	Column Size	SKU
12' x 12'	8' X 8'	8" X 8"	H920001
14' x 14'	10' X 10'	10" X 8"	H920011
16' x 16'	12' X 12'	10" X 8"	H920021
Standard Round Wind Load/Deck Plate* - 8" Column			H900001
Standard Round Wind Load/Deck Plate* - 10" Column			H900003

*Deck screws not included

STABILITY

Our stock pergola kits are wind load rated. Fiberglass beams can span longer distances than wood or vinyl. Unlike wood, their high strength-to-weight ratio keeps them from sagging under their own weight. Unlike vinyl, they are unaffected by variations in temperature and will not sag in hot climates.

HIGH STRENGTH-TO-WEIGHT RATIO

Pound for pound, our light weight fiberglass-reinforced components are stronger than steel. This allows for quick and easy installation without the need for cranes or large crews.

CORROSION RESISTANCE

Fiberglass-reinforced composites are naturally corrosion resistant. They will not rust, corrode or pit in external applications.

Our stock pergolas are manufactured white with Spartan Tails and square or no taper round pultruded fiberglass columns without neck molding. All standard stock pergolas ship in one week. Optional wind load/deck plates are available if you live in a high wind area or plan to use on a deck.

PERMALITE™ SQUARE COLUMN PERGOLA KITS

Overhead Size	Column Center Size	Column Size	SKU
12' x 12'	8' X 8'	8" X 8"	H920101
14' x 14'	10' X 10'	10" X 8"	H920111
16' x 16'	12' X 12'	10" X 8"	H920121
Standard Square Wind Load/Deck Plate* - 8" Column			H900002
Standard Square Wind Load/Deck Plate* - 10" Column			H900004

*Deck screws not included

CONSISTENCY IN APPEARANCE AND PERFORMANCE

Compared to traditional materials, fiberglass components offer a uniform appearance that lasts for years. They do not twist, warp or bow after installation and they maintain their full strength over the life of the product.

EASE OF INSTALLATION

Our pergolas are fabricated to specific dimensions, making installation easy and fast. Parts are clearly marked and all hardware is included so that your pergola can be completed in hours. Optional wind load/deck plates do not include deck screws.

LOWER "LIFE CYCLE" COST THAN TRADITIONAL MATERIALS

Over the life of the pergola, the durability and weather resistance of fiberglass components make our products a great investment. They are virtually maintenance free and will provide many years of enjoyment.
